

Volume 8.

## EXHIBITION OF GARDEN STUFF IS SUGGESTED

To Be Held in the Fall When  
Awards Will be Offered For  
Best Vegetables and Flowers  
Grown in Town and Surrounding  
Country.

A movement is now on foot among some of our citizens who are most interested in gardening, and beautifying the homes in town by growing flowers, vines and trees on the home property, to hold some kind of an exhibition towards the end of the season.

Although the movement is only in the suggestion stage, several ideas have already been made as to what lines should be followed. To our mind the most feasible one under present conditions is to start in a modest way by setting aside a date—say some time in August—when we will have an exhibition of all kinds of garden vegetables and flowers. These could be displayed in a building secured for the occasion and under the same management would make the awards for the different classes. First, second and third prizes could be offered for each class but the value of the prizes are not considered by exhibitors as much as just winning them, they could be very inexpensive. As there will be some expense in connection with the movement, a small entrance fee could be charged exhibitors.

As we said in the outset nothing definite has as yet been decided upon but we are satisfied by the enthusiasm displayed among those who have been talking about something of this nature will be attempted this fall. We would therefore advise all who intend having a garden to keep this in mind during the summer and make a special effort to have something to exhibit.

A start in this direction might ultimately lead to a regular large fair.

## Think Russia is Out for Some Time

After a residence of some years in Moscow, Messrs. S. M. Hunter and H. Allen of London, England, arrived in Vancouver on their way to the home land. They are not optimistic of Russia coming back to help the allies. In fact, as Mr. Hunter expressed it, since the revolution the Russians do not look upon this struggle any more as a holy war and they are sick of fighting. The entire commercial attitude is a standstill, he added, and there was no likelihood of any improvement for some time.

"Everything is in the hands of the Bolsheviks and will probably remain so until after the war. They are the best organized section of the community and it is for that reason that they hold the upper hand." Russia is not so much facing a famine, he said. In the towns only is there actual starvation felt, but in the rural districts there appeared to be plenty of food when they left on March 8th last.

"Liberty in Russia means license," said Mr. Hunter, "and the next thing you may look for is the rule of the anarchists. I see nothing else for the future. Russia is in a bad way so far as the supply of food is concerned. There is nothing to prevent the Germans taking charge of the entire country, which is what they will do unless the allies step in."

## Mounted Police To Go Overseas

All N. T. O. men and of the R. N. W. M. P. with the exception of those in the Yukon and far north last year, are being transferred to divisional headquarters to form the draft for overseas service. It has not yet been settled to what unit the men from the Mounted Force will be attached but in the first draft home or the third.

## Odd Fellows to Attend Church.

At the regular meeting of the Odd Fellows lodge held last evening it was decided that the lodge attend the Baptist church in a body on Sunday evening May 19th.

## Can't Arrest Now Without a Warrant

Quite a debate took place in the legislative Friday afternoon on the right of a policeman to arrest without warrant, and eventually the particular section in the statute law amendments act in the liquor act was altered to read, "Any offense under this act."

## Home Rule for Ireland Essential Says Lloyd George

Premier Lloyd George said in the house last Tuesday:

"It is desirable in the interests of the peace of the world to settle the question and produce something like contentment in Ireland and good will in America."

Mr. Lloyd George believed that American opinion supported the movement for Ireland to Ireland, and it was of the greatest importance at the moment America was rendering to the allies great aid on the battlefield that Great Britain should satisfy American opinion. Nothing would tend more to secure the greatest measure of American assistance.

Mr. Lloyd George said the best way to convince American opinion that England is dealing fairly by Ireland was for the British parliament to temper such a measure of self-government to Ireland as to satisfy American opinion, and he believed that the government could do this.

## Campaign for the Y.M.C.A. Funds

Nearly 100 men from all parts of the province attended the Red Triangle Fund Conference in Calgary, last week, to discuss the Alberta campaign for \$118,000 to help maintain Y.M.C.A. with the military.

The type of work was explained from all angles by G. H. Warburton of Toronto, and Capt. J. M. McKendrick, formerly of the 91st and 49th.

After hearing the plans of the national campaign for the total amount of \$2,250,000, the delegates were unanimous in endorsing the dates of July 7, 8 and 9 for the campaign.

## Formalin Has Not Been Tamped With

It now turns out that the report about the formaldehyde being tampered with by alien enemies is only another of the many scares which are periodically put off.

A five days diet of seed treated with the supposed poisoned formaldehyde taken from 25 points in the province shows need of high germanium and strong vitality. Alan 39 chemical tests all indicate that the formaldehyde has not been tampered with as supposed.

## TO CALL ALL MEN BETWEEN AGES OF 20 & 23

Action Necessary Because of  
Seriousness of Situation on  
Western Front—No Exemptions  
Allowed and all Previous  
Exemptions Cancelled.

Owing to the critical situation which has with some suddenness developed on the western front and which is likely to continue until the allied nations have materially increased the strength of their forces, the government of Canada after the most careful consideration of all the circumstances and possible consequences, has reached the decision that it is not only desirable, but absolutely essential that substantial reinforcements be secured for the Canadian expeditionary force westward.

In view of the emergency that has arisen it is now recognized that the additional men so urgently needed can not be secured without the time required through the ordinary operation of the Military Service Act or of any system of individual exemptions. The government has therefore decided that the only way in which reinforcements can be secured in time and in sufficient numbers is by taking authority to order out for service all men of certain defined ages who are physically fit and to abolish all exemptions in the case of all men so ordered out.

It is the intention to call out in the first instance young men and widowers without children between the ages of 20 and 23, both inclusive. It is believed that these young men can be spared with the least disturbance to agricultural and other essential industries. The calling out of men of other ages under the proposed order-in-council must necessarily depend upon the exigencies of the war and the need of reinforcements.

In the meantime the Military Service Act will continue in operation as to all other men in class one, and as regards other classes under the act the men of 19 will be required to register without delay. Every effort will be made to speed up the work of the tribunals and appeal courts in dealing with the balance of exemption claims outside of course, of the men called out under the new order.

In order that the government may have full power to deal with the situation as it may develop from time to time, parliament is asked to approve of the government's order-in-council necessary authority to call out the men of any age in any class under the Military Service Act and to abolish all exemptions in the case of any class so called.

The order-in-council not only makes all young men now 19 years of age subject to the provisions of the Military Service Act, but also all other young men as and when they attain 19 years of age.

The order removes the exemption now enjoyed by officers and men who have served in the expeditionary force, and who did not proceed further than Great Britain and have since returned to Canada and been discharged. They will be required to register physically fit when their class is called.

Certain treaties are now under negotiation with foreign governments, under which the Canadian government resident in Canada may be made liable to military service. Where any such treaty is consented to the order-in-council gives the government the power to call out the citizens of such country for service as members of the Canadian expeditionary force, in the same manner as British subjects.

## Alberta Expected to Give 16,000 More Men

The Montreal Star intimates that there are about 150,000 young men who will be affected by the amended Military Service Act. Quebec will provide 36,000, Ontario 36,000, Manitoba, Saskatchewan, Alberta and British Columbia about 10,000 each, and the total 160,000. Prince Edward Island 2,000, and New Brunswick 5,000.

## Air Fight as Seen By Redcliff Boy

F. Baird is in receipt of a letter this week from his brother Jimmy, who has been in the trenches in France since last November. Jimmy is still feeling quite fit, although he has been through some severe fighting. It gives an account of a battle in the air which he witnessed and it is so interesting we reprint it in his own words, on almost verbatim.

"I saw a real good air fight when two Fritz machines and two of ours were engaged. It took place so high up that they could just be discerned as the sun's rays caught their planes. They were whirling round one another and the machine came away and was entering we reprint it in his own words, on almost verbatim.

"I saw a real good air fight when two Fritz machines and two of ours were engaged. It took place so high up that they could just be discerned as the sun's rays caught their planes. They were whirling round one another and the machine came away and was entering we reprint it in his own words, on almost verbatim.

## Legislature Sends Message to Soldiers

The following message has been sent the soldiers from Alberta fighting overseas by the legislature assembly:

"The members of the Alberta legislature assembled hereby place on record their heartfelt appreciation of the valorous deeds of Alberta's sons who have placed Canada high on the scroll of national fame and prove conclusively that the western provincial fighting men are of the best traditions of the British empire. We are dealing with war problems at home as well and have passed legislation in favor of the soldiers as far as possible for the relief and comfort of your dependents, and are confident that in the final issue now pending Alberta's soldiers will show the same unconquerable spirit that has planned the empire on the plains of the west and that has so often won victory on the field of battle for freedom and public right."

## To Muzzle Press And Loose Tongues

New regulations governing the publication of statements, reports or opinion of the verbal expression of opinions which may tend to weaken or detract from the united effort of the people of Canada in the prosecution of the war, were promulgated by the government in an order-in-council which received the assent of the governor-general. The purpose of the order-in-council is to prevent the publication of a kind that would divert attention from the object of winning the war. The provision is made for the seizure and destruction of process, plants, machinery or material used in the publication of any matter which, in the opinion of the secretary of state, constitutes a hindrance to united action.

## Dry Wave Sweeps Over New York State

The liquor traffic received a harrow in New York state yesterday with the announcement that more than a majority of the 29 cities holding local option elections had declared not only against the saloon, but also against the sale of liquor under any circumstances.

With only one city—Geneva—in doubt, the returns showed that the voters of 28 municipalities had decided to continue the traffic in alcoholic beverages.

## C.W. Reade's Brother Dies for His Country

In the list of casualties published last Monday the name of Lieut. T. H. Reade appears among those reported killed in action.

Lieut. Reade was a brother of C. W. Reade, manager of the Imperial bank here. He was a young man about 28 years of age and leaves a wife who now resides in Revelstoke. Mr. Reade has lived in C. W. here confirming the report. In reporting this casualty the Calgary Herald has the following to say:

Lieut. Reade was a Toronto man and came west about seven years ago. Immediately before enlisting in Lieut. Reade's battalion in Calgary he was on the staff of the Imperial bank at Revelstoke. When the American Legion battalion was formed here he transferred to that unit, with which he proceeded overseas. He was exceptionally popular with his brother officers and much liked by the rank and file. He was a very friendly in Calgary, who will be deeply grieved to hear that this gallant officer has been called upon to lay down his life."

## Allies are Now Holding Firm on Western Front

The latest reports issued from the British war office and dated this morning, confirm the opinion that the enemy drive is now on the wane and that the Allies are making a more determined stand. The report says:

"Informed by French troops, the Allies line is holding hard against further incursions by the Germans in the region of La Bassée to the north of Ypres."

Everywhere the Germans have struck the line, in an endeavor to press back the defenders, they have been met by a heavy loss and have been successful nowhere in gaining ground.

We have attacked various enemy positions on the Arras on a front of four kilometers, between Thennes and Mully-Bainval.

East of the Arras we have taken progress, and west of it we have taken a greater part of the Senecal wood, and carried our line to the outskirts of Castel. Further east we reached the slopes west of the heights dominating the Arras.

"The number of prisoners captured is estimated to be the greatest, 500 of which 15 are officers. We captured several machine guns."

It is confirmed that an enemy raid last night cost of Canadian was deadly for our assailants. We found about 40 German bodies on the ground, and took 200 prisoners, including one officer.

"Eastern theatre, April 17—There was great activity on the part of both sides along a section of the front. An important surprise attack carried out by the British and Helene troops on the Struna on April 16 had most satisfactory results, and inflicted heavy losses on the enemy."

## Belgians Gain a Victory Over Huns

The German attack against the Belgian position near the coast is especially noteworthy. In this stage of the campaign the enemy employed four divisions, one of marine infantry, one of Bavarian and two Prussian.

An intense night long bombardment was probably counted upon to forestall Belgian resistance, but the Germans actually found that they were mistaken, for the Belgians put up a fight ranking as one of the epochs of their splendid resistance, finally driving back the Germans in confusion and taking more than 600 prisoners. This brilliant victory was on a stretch of six kilometers, between Langemark and Nijpe.

## TEUTONS MAKE SOME GAINS IN OFFENSIVE

This Was Done During First Part of Week—French Come To Relief and Now Allies Holding Enemy Back—Gain Some Lost Ground.

There is no doubt that a terrific battle is now raging on the Western battlefield and that the enemy has concentrated his entire force against the portions held by the British.

The enemy is continuing his forcing tactics and is employing large masses of fresh troops. Since the opening of the western offensive the enemy has thrown in one hundred and twenty divisions, while many have been thrown in two and even three times. Since the fall of Belgium the Germans have been fighting up to Rheimsberg, the bombardment of Verdun, and has established himself in Spaenbroekmolen. The greater part of Messines Ridge is now in the British hands, while the Allies still hold the slopes.

The enemy also endeavored to develop an attack east of Rheimsberg, following the bombardment of Verdun, but his advance was broken up by our artillery fire.

In consequence of the progress made by the enemy on the Ypres front, our troops holding our forward positions east of Ypres have been withdrawing to new positions, while the Allies still hold the slopes. The enemy also endeavored to develop an attack east of Rheimsberg, following the bombardment of Verdun, but his advance was broken up by our artillery fire.

On the battlefield south of Arras parties of German infantry who had entered our trenches opposite Boves were driven out with the loss of several prisoners. Our line in this locality has been completely repaired.

During the first part of the week the Germans are reported to have made considerable gains and taken some important towns. However they have not attempted to advance their wedge farther into the British lines, for no new attacks on Merville and farther west have been attempted. They have devoted their sole attention to the capture of the line, and the silent and striking at Messines Ridge and the railway running about six miles north of Bailleul. Messines Ridge is now in the British hands, and its possession will give the Germans a commanding position in starting on all sectors.

However, latest reports are to the effect that the French have come to the relief of the British and the last twelve miles of the front have been favorable to the Allies, as they have taken some of the ground lost earlier in the week and are holding fast on all sectors.

## U.S. Irishmen Say Win the War First

Resolutions protesting against the opposition of Irish Nationalist leaders to conscription in Ireland were adopted at a mass meeting of Irishmen and citizens of Irish lineage held at Chattanooga, Tenn. A copy was mailed to John Dillon, National leader in Ireland, and the resolutions said that home rule and other questions that affected Ireland must be subordinated to the more pressing duty of successfully prosecuting the war against Germany.

## Charlie Chaplin Drafted in U.S. Army

Charlie Chaplin, motion picture comedian, has been drafted and expects his call in June. It was announced at his studio Monday. Although he is an Englishman, Mr. Chaplin has waived his rights and expects to wear Uncle Sam's khaki in a short time. He is to join the country's selling Liberty bonds.

The Workmen's Compensation Act, passed by the Alberta legislature, will apply to all the industries and all the businesses in this province, with the exception of railway companies.

## THE SILVER LINING.

While the news from this western battlefront was none too cheerful for the past week, and while we all realize that the present situation is the most serious and critical of the war, yet in reading between the lines of reports sent out by British and French officers, there are reasons for believing that the continued falling back of the Allies is part of carefully laid plan for something different in the future. That the temporary gains made by the enemy are costing them dearly, there is no doubt and it is just as certain that much of the retreating of the Allies is done because they do not want to pay the price by holding on at the present time. Gen. Foch has intimated that certain places are worth so much to defend and no more, and that price is arrived at by what it is worth to prevent the enemy from obtaining a strategic advantage. So far no such advantage has been gained by the enemy. Thus when the price was paid the point was evacuated, leaving it of no material advantage to the enemy.

Then there is the fact that enemy leaders have thrown down all their cards. Their objective is known. On the other hand Gen. Foch has not exposed his hand and he is undoubtedly waiting for the opportune moment to play his trump cards. To be sure a heavy cloud is hanging over the horizon and has its depressing effect upon our daily activities but on it also there is the silver lining which encourages us to look for better news in the near future.

## A GOOD MOVE.

According to an advertisement in the Medicine Hat News last Tuesday The Canada Land and Irrigation Company is planning 550,000 acres of land on the market at reasonable valuation. This company is anxious to get in touch with bona-fide settlers to go on the land and work it.

This company is what was previously known as the Southern Alberta Land Company and controls all the land previously owned by the latter company. The land advertised is between Rittby and here, some of which is in the immediate vicinity of the town and is considered as good land as can be found in Southern Alberta.

The announcement that the land in this district controlled by the Southern Alberta Land Company, is now to be placed on the market and sold to bona-fide settlers at a reasonable valuation, is the best news we have had for some time. There are thousands of acres of this land contiguous to Redcliff, which have been lying idle for years, and its settlement and development will mean much to the future prosperity of the town. We know of several cases of farmers in this district who want to increase their holdings but have been unable to do so in the past because they have been hemmed in on all sides by S. A. L. land which was not on the market. Since this land is now being offered for sale it would only be fair that these farmers should have the first choice of securing whatever land con-

tiguous to their own farms they may desire. We would advise all such to call at the office of the company in Medicine Hat as soon as possible.

## SERIOUS SITUATION

According to Mrs. Nellie McClung, who is scouring the country in an effort to induce married women with teachers' certificates to teach school till after the war, there are 900 empty schools in Alberta for want of teachers. This means that there are approximately 15,000 children in rural portions of the province going untaught this year.

If Mrs. McClung's figures are correct—and we presume she speaks with authority—this is indeed a serious state of affairs and one which requires more drastic action on the part of our Department of Education. In the opinion of the Review the only solution to this unsatisfactory condition is for the department to take full control of the engagement and distribution of teachers throughout the province.

There are no doubt hundreds of married women throughout the province who would be willing to assist in this matter but their circumstances are such that they could not volunteer their services if it took them away from their home duties and responsibilities. On the other hand there are hundreds of unmarried teachers, male and female without any ties, who could teach just as well in one corner of the province as in the other, without interfering in any way with other calls upon their time. With the department or some central organization in charge all the available teachers could be pooled and distributed there where they are most needed and can most satisfactorily serve.

## FUEL QUESTION.

It is none too soon to take thought as to the means for keeping warm next winter. Lack of foresight in the matter of securing fuel caused much loss, suffering and inconvenience during the winter just passed, and it would be bordering on the criminal to repeat the blunder. From the nature of the situation there can be no assurance of an adequate supply of coal coming from the United States. At the same time, the mines of Nova Scotia are facing a probable falling off in production for this year, coupled with a marked increase in consumption in the Maritime Provinces.

In considering the matter of fuel the first thing that always presents itself to us is the great amount of waste in this line in all natural gas towns, such as our own, and our neighbor to the east. If figures could be secured as to the amount of good fuel, such as old lumber, boxes, barrels, chips, etc., which are annually burned in bon fires during the spring cleaning season, in these two centres, we are sure they would be astonishing. Now each farmer in the surrounding country has some friends or friends in town and it has occurred to us that if both would get together, the one to preserve such material and the other to collect it regularly, much of this needless waste could be overcome and the farmers supplied with kindling wood at least.

Then there is the question of old railway ties. Men are arrested and fined for picking up one of these rotten ties and using it for stove wood, yet millions of them are burned annually on bon fires by the track to get them out of the way. It is estimated that ties burned in this way every year represent 30,000 tons of coal. Now the

government has forbidden this waste and those living along railways are allowed to remove the old ties under certain necessary conditions, and the railways have indicated their willingness to co-operate to the fullest extent.

These are matters which it would be well worth a farmer's while looking into.

## IT'S THE STYLE.

Ladies in town are now wondering if the town, for leaving such wide cracks in the sidewalks, get a rake-out from the cobbler. They say that every time they go down town they come back with a heel or a toe off their boots. No, we don't think it is a case of graft. The trouble is that the style of wearing sidewalk shoes doesn't change with the styles in ladies footwear. Toothy heels for toes and stilts for heels were not the style when our sidewalks were put down. We would not advise the council to change the sidewalks at present; at next month's style might feature the ankle watch as the sole decoration of the feminine pedal extremities. Then sod walks would be preferable.

Now that the Provincial Government has proven by experiments that the report about the formaldehyde being tampered with by alien enemies was only a scare, it might be well if they would continue their investigations and try to find out the person or persons who started the report. If the guilty parties could be located they should be invited to be guests of the government at its Ponaka institution until after the war.

Daylight saving went into effect last Sunday and now we are all travelling an hour ahead of the sun. That's going some. With this speeding up in our pace we should be able soon to overtake the Germans, and one of the best ways to do it is to use the extra hour of daylight in the evening by producing something in the food line. Have a garden, for instance.

## Our Allies Must Be Fed

DESPITE war conditions, we have not as yet felt the pinch of hunger in Canada. Consequently, it is difficult for us to realize the grave need for increased food production in order that others may be fed. At no time is Europe self-supporting in the matter of food. After nearly four years of war, our Allies are living from hand to mouth, depending entirely on the safe arrival of food ships from across the Atlantic.

Because of our comparative nearness to our Allies, and because of our wide, fertile areas, this continent must continue to feed Europe. If we fail, hundreds of thousands of people may starve and our armies be denied a conclusive victory.

A bumper crop, a record harvest and increased meat production in Canada will be worth the winning of many battles to the Empire and our Allies at this critical period.

## Increased Production Imperative

Canada must raise for export at least 250,000,000 bushels of wheat more in 1918 than in 1917, to enable the Allies to maintain even their present restricted ration.

They shall NOT starve!

make that your slogan.

Plans have been formulated which, on the authority of The Director of Agricultural Labor, positively ensure that labor will be provided

when needed, to harvest the maximum crop. Authorities agree that the world-wide shortage of food will cross the lines going south. Only The farmer is assured a ready and profitable market for all the grain and meat that he can produce.

The Empire depends on the Canadian Farmer to "carry on."

CANADA FOOD BOARD

*Henry A. Harrison*

Chairman

government has forbidden this waste and those living along railways are allowed to remove the old ties under certain necessary conditions, and the railways have indicated their willingness to co-operate to the fullest extent.

The original Huns attained their greatest power under Attila in the fifth century. Attila was a Hun of royal descent and called himself the "scourge of God." The Hun of today is still a scourge but in this age of reason, free thinking people are more inclined to associate any kind of scourges with the Devil than with God.

A German Methodist evangelist down in Kansas named his baby Kaiser William. He is now in prison in Texas awaiting his trial for making sedition utterances.

## MAY SOLVE IRISH

TROUBLE AT HOME. There are strong hopes in London that Irish troubles will undergo a gradual and pacific solution. An important fact is that the menace of official events in France overshadows all other considerations, and imposes restraint upon all the factions of Irishmen and their ardent British supporters.

## New Food Laws

## Now in Force

Definite instructions in regard to the new food regulations to govern public eating houses and homes throughout Canada have been issued and are in effect and the police are expected to see that the regulations are carried out.

The following are the regulations and they are to apply to all public eating places other than public, lumber, logging, mining, construction and fish curing camps and hospitals.

(a) Beef and veal may be served at the evening meal only on any day; and on Wednesday and Friday none shall be served.

(b) Pork may be served at the morning meal only on Sunday, Tuesday and Thursday; and at the noon meal on Monday and Saturday; and on Wednesday and Friday none shall be served.

(c) At the midday meal each day no wheat or product of wheat shall be served; and at every meal where white bread is served there shall also be served some substitute, such as corn bread, oat cakes, etc.

(d) Except under special licenses granted by the Canada food board and in accordance with regulations made by them, no public eating place shall serve to any person more than one ounce of hot bread or any product made wholly or in part from wheat flour between the hours of 10 a. m. and 8 p. m. and 8.30 a. m.

(e) Notwithstanding any contrary provisions, sandwiches made from wheat bread and pork, beef or veal may only be served at railway lunch counters at any and all times to bona fide travellers. All other public eating places shall not serve sandwiches during the mid-day meal, nor shall they serve sandwiches at other times of the day.

(f) Bread shall not be served on tables until the first course is served. There shall not be served to one person more than two ounces of bread or rolls, or other product made from standard flour, or four ounces of bread or other product made from bran, corn, oats, barley or other flour at any one meal unless at special request be made for special serving.

## Russians Blame Huns

## For Armenian Murders

A Russian wireless message addressed to Berlin says:

"The offensive of the Turkish troops and detachments on the Caucasus front has been followed by the murder of the whole Armenian population. The peaceful population of women and children have been killed without mercy and their property has been plundered and burned. The peace treaty, which we were forced to sign at Brest-Litovsk, left the determination of the future destiny of the people of the provinces of Ardahan, Kars and Batum to themselves. The events which have taken place in these provinces testify that the old policy of the annihilation of the Armenian people is still to be applied."

"On the Turkish front the advantage in the war was on the side of Ardahan, Kars and Batum only because Germany was the ally of Turkey. The responsibility of all the horrors of which the Armenian people are now suffering in these regions already occupied by the Turkish troops lies, therefore, with the German government, which directly helped Turkey to secure these regions."

"The people's commissariat for foreign affairs protests against such abuse of the right of self-determination of the population of these provinces and expresses the hope and intention upon the necessity of immediate and energetic intervention on the part of the German government in the Caucasus with a view to stopping further murder and annihilation of the peaceful population, such as has taken place in Ardahan."

## BRITISH BRING DOWN

## 35 GERMAN PLANES

Thirty-five German airplanes, 21 of which were destroyed, were brought down by British aviators on Thursday. Four British machines reported missing. Two British machines reported missing last Thursday have since returned. The official statement on aerial activities reports the dropping of bombs on military targets behind the front, and on the railway station at Metz.

Director-General McAdoo has ordered the Erie canal to be taken over by the railroad administration and that a fleet of barges be constructed immediately and operated there under the direction of G. A. Townsend, of Lakota, Minn., to relieve freight traffic.

## WINTER RYE.

For the past 15 years or more, winter rye has been grown at the Laidlaw Experimental Farm with good success. Until recent years, however, winter rye has received comparatively little recognition as a valuable grain and pasture crop. Winter rye has the ability to produce good crops on light, sandy soils too poor for the production of other crops. However, it is so susceptible to good cultivation and fertilization. The records of the Laidlaw Experimental Farm for the past 11 seasons show an average yield of 39 bushels and 87 pounds per acre. Under average conditions the yield will run between 25 and 40 bushels per acre.

To obtain best success with winter rye it should be sown on summer fallow ploughed six inches deep early in June, harrowed and cultivated frequently in order to conserve moisture and keep the weeds down. Sown towards the end of August (precisely August 20th to Sept. 1st) at the rate of 1 1/2 bushels per acre.

Winter rye is adaptable to prairie conditions and may be used for different purposes, namely, fall or early spring pasture, cut for hay or allowed to mature as a grain crop. Summer fallow land sown to winter rye is not subject to soil drifting. The introduction of winter rye in western agriculture will materially benefit the farmer and assist in solving many of the problems in cultivation and eradication of weeds, especially wild oats.

## Huns Plan to Destroy British Army

According to reports from London, the German high command for the front are directed toward the systematic destruction of the British armies. Having failed to break the communications between the British and French, the enemy has turned his sole attention northward, and it appears likely that the Germans will continue to throw all their available strength in that direction.

The enemy's plan seems to be to deliver a succession of hammer blows at different points between the Somme and the sea, and with the desire of bringing about a lifting of the evacuation of the entire northern district of France.

Six German armies are participating in the battle raging along the front. There is a remarkable parallel between the present battle and the operations after the battle of the Marne, when there was a race toward the sea between the Germans, who were endeavoring to reach the Channel port, and the allies, who succeeded in stopping the Germans' push, and although forced under overwhelming strength of the German armies to recede some distance, they are planning a stern resistance to a further advance.

## Ireland One Step Nearer Home Rule

Ireland has taken a step nearer home rule. The Irish convention, which is in Dublin for eight months, considering the problems, besetting the island, has submitted to the British parliament a plan, which, while not the unanimous decision of the convention, represents a basis for agreement on some of the questions which in the past have prevented all the parties of Ireland from acting in harmony.

The plan calls for an Irish parliament modelled after that of the empire, the authority of which would not be diminished. An executive responsible to it and full powers over internal legislation, administration and direct taxation, is also provided.

A meeting with objections from Unionists, it is agreed that a 40 per cent representation in the proposed parliament will be guaranteed them by the dominant Nationalists.

Provision is also made for extra representation from Ulster.

## Russian Fleet is Attacking Enemy

Dr. Richard von Kuehlmann, the German foreign minister, has telegraphed to M. Tikhomirov, the Bolshevik foreign minister, to the effect that the Russian Black Sea fleet has separated into sections of unknown nationality and, in violation of the peace treaty providing for the disarmament of Russian warships, is attacking allies of Germany. Dr. von Kuehlmann gives notice that all Black Sea warships continuing to act as such after April 20th be treated as hostile ships.

## How to Dispose Of Surplus Cream

At some time or other during their career most dairy farmers have experienced difficulty in marketing produce satisfactorily. The trouble may have been because of a poor demand for the product, or the quality may have been below standard.

The dairy produce from the Experimental Farm, Ag. C. G., has been sold in a number of different ways, one of the most satisfactory of which is in the form of cream cheese. The cream cheese, appears to be the most popular soft cheese. It is easily made on the farm and requires very little special apparatus. The labor and cost of making and packing are small, so that the manufacture is well suited for any producer with a reasonable distance from a market. R. C. G. has been able and remunerative method of marketing cream.

The method of manufacture is precisely described in Exhibition Circular No. 23, which may be obtained for the sum of from any of the Experimental Farms.

## BREAD RIOTS IN

## HOLLAND REPORTED

Military forces called out to protect baker shops in Haarlem, Holland, fired on a crowd which attacked them with stones, killing one woman and wounding several others. The troops also charged with drawn swords on crowds in different parts of the town and many people were injured.

Food riots also have occurred in Rotterdam, where bread carts were stoned. Re-inforcements were sent to the troops there.

Government has provided \$400,000 for a plant to produce food for the famine of Eastern Saskatchewan, and has taken steps toward developing the peat bogs of Ontario.

## Sammies Too Much For the Enemy

A report from American headquarters in France to the American press says:

"The German attack against the American position on the right bank of the Meuse, north of St. Mihiel Sunday, was made by a force of 400 picked troops who were recently brought there from the Russian front. Although the Americans were outnumbered more than two to one, they completely repulsed the enemy, driving him back to his own trenches. The known enemy casualties include 64 dead, many wounded and 11 prisoners, besides a number of wounded, who were dragged back to the German lines by their comrades."

The Germans attempted to deceive the Americans by appearing in front of the trenches and speaking French and English, and also by yelling "The decision, however, was soon discovered and cost the enemy dearly. The American casualties were comparatively slight."

## SAYS AUSTRIA-HUNGARY.

## NOW HAS PEACE MOVÉ.

The Cologne Gazette, according to a dispatch from Copenhagen to the Exchange Telegraph Company, prints a report that a strong peace movement is developing in Austria-Hungary circles in consequence of the resignation of Count Czernin, the Austro-Hungarian foreign minister. Many say that the removal of Count Czernin affords an opportunity to seek a basis for peace negotiations which has been impossible since the count was minister for foreign affairs.

## TEXAS SALOONS CLOSE.

The saloons in practically all Texas cities of more than 5,000 population closed their doors for good last Monday as a result of the law enacted at the last special session of the legislature prohibiting the sale of liquor within 100 miles of any army camp. About 1,200 saloons closed, the few that remain will be done away with when a statewide net passed at the last legislative session becomes effective.

## Germans Now Calling On All Cripples

Germany is so hard pressed for manpower, that permanently disabled soldiers in the army unit cripples are called to the colors. This statement was made in the Reichstag by Deputy Ryssel, Independent Socialist, on February 23, according to the Berlin Vosszeitung, a copy of which has reached New York. Other deputies also laid bare sensational conditions prevailing in Germany's army.

## Huns Want Territory And Indemnity Now

The German government has definitely annulled the peace resolution "Without annexations or indemnities," passed by the majority of the Reichstag last July, according to an official dispatch from France.

Count Hertling informed the leaders of the majority parties that if they adhered to their resolution he would resign, the report said. Factions of the majority then adopted the chancellor's point of view and formally declared that they accepted the new program of the imperial government which includes the incorporation by Germany of French territory and of the Belgian coast of Flanders as well as the payment to Germany by the eastern powers of a considerable war indemnity.

## Making British Gun To Shoot 80 Miles

In the British house of commons J. L. Macpherson, parliamentary under secretary of the war office, informed a questioner that steps had been taken to construct a British gun capable of throwing a shell more than 80 miles.

About 1,200 saloons closed, the few that remain will be done away with when a statewide net passed at the last legislative session becomes effective.

The vanguard of the army of new settlers to western Canada is now beginning to arrive. Settlers, with families and effects have been coming through and principal ports of entry in a steady stream during the past two weeks.

## NOTICE TO CREDITORS.

In the Estate of Peter Muirhead, late of the vicinity of Redcliff, in the Province of Alberta, Hancher, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the late Peter Muirhead, who died on or about the 31st day of December, 1917, are required to file with Messrs. Short & Fraser, Barristers, Medicine Hat, Alberta, solicitors for the administrators of the said estate, on or before the 20th day of May, 1918, a full statement of their claims and of any securities held by them, duly verified, and that after that date the administrators will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed with the said Short & Fraser.

SHORT & FRASER, Solicitors for Administrators, Medicine Hat, Alberta.

Approved: G. W. G., J. D. C.

## NOTICE

In the matter of the Court of Confirmation of the Tax Enforcement Return of the Town of Redcliff.

Take notice that His Honor, Judge Green, Judge of the District Court of the District of Medicine Hat, has appointed Monday, the 10th day of June A. D. 1918, at 10 o'clock in the afternoon, at the town Hall, Redcliff, as the time and place for the holding of the Court of Confirmation, to confirm the Tax Enforcement Return of the Town of Redcliff.

Dated at Redcliff this 15th day of March, A. D. 1918.

P. H. COURTNEILL, Secretary-Treasurer of the Town of Redcliff.

## PLAN KNOCK-OUT BLOW

## BEFORE SAMMIES ARRIVE

Germany stands today as a predatory nation and is trying to destroy the British and French armies before the American forces can be brought into the field, said Arthur J. Balfour, minister of foreign affairs, in a speech according to a tablet at a luncheon to the American labor delegation.

## NOTICE TO CREDITORS AND CLAIMANTS

In the estate of Frank Fremont Woodcock, late of the Town of Redcliff, deceased.

## SICK WIFE'S STORY

## SURPRISES REDCLIFF.

The following has surprised Redcliff: A business man's wife suffered from dyspepsia and constipation for years. Although she dieted she was so bloated her clothes would not fit. ONE SPOONFUL buckwheat, glycerine, etc., is mixed in Adler-Lie's relieved her INSTANTLY. Because Adler-Lie's empties BOTH large and small intestines it removes ANY CASE constipation, poor stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. C. T. Tiel, Truett.

Mrs. (Ber.) G. Gordon left last Thursday for Bluff to join Mr. Gordon who is now holidaying there.

A. Jackson, of Calgary, was in town last Tuesday auditing the books of the Light & Power company here.

Bluff people of this town, who have been on his homestead for the last two weeks, expects to put in a fair crop this year.

The weather of the past week has made it possible for great progress on the land and now our farmers are getting well along with the seeding.

Mr. Verdon, who has been employed as master mechanic at the Bluff Mills here, left last Monday evening for Vancouver where he will reside in future.

D. Broadfoot has sold his ranch north of town to Mulheide brothers. The new owners are brothers of the late Peter Mulheide from whom Mr. Broadfoot bought this ranch.

From all accounts the date the third Liberty Loan now on the market in the United States will be away over subscribed. The campaign will be a short and swift one.

Mrs. W. M. Dolan of Girvin, Sask., is spending a few days here with her brother, John Moore. She leaves Monday night for Ottawa where she will visit friends for the summer.

A. Barre, son of Mrs. Barre of this town, has enlisted and is now in training. He spent last weekend at home and expects to leave shortly for overseas.

Irene Reid entertained a number of her friends last Tuesday afternoon to celebrate her seventh birthday. A lively lot of youngsters were present and all enjoyed minutes of the program of games arranged.

Miss Smith, of the public school staff, was called to Walsh last week owing to the serious illness of her uncle. During her absence Mrs. Simpson is teaching her room at the school.

A sale of work will be held in St. Ambrose parish hall on Wednesday, April 22nd, commencing at 3 o'clock in the afternoon. During the afternoon tea will be served. In the evening there will be a whist drive for which there will be an admission fee of 25c. On Monday there will be a shower for the Wednesday sale.

Adam Egleston, who has been working in Redcliff all winter, has been engaged to take charge of Hewitt & Black's hardware store in Mayberry. Egleston was in town Monday with the company's motor truck and on his way back to the flat, the truck turned turtle and threw him out on his head. He was not seriously hurt.

The Department of Agriculture at Edmonton reports that there is now a surplus of farm laborers for Alberta when there are a number of married people in which both man and wife seek employment. The department advises that farmers needing help should make their wants known to the nearest government official as soon as possible. One of these officials is located at Medicine Hat.

Mr. and Mrs. W. J. Fairbairn spent last week-end in Medicine Hat, the guests of Mr. and Mrs. W. Armstrong.

Under the new law which prohibits leaving twenty dollars were arrested in Calgary yesterday.

If you noticed the Review Miscellaneous column grew lately? Well the best part of it, the ads, gets results.

Robt. Hamilton is now busily engaged setting in a crop of his farm's potatoes of here. He was in town today and reports good progress.

Mrs. Clarence Walker has just received a communication announcing the date for the presentation of the Military Medal awarded Lance Corp. Clarence Walker. This presentation will take place in Medicine Hat April 25th.

D. Smith, a farmer of the Box Springs district who enlisted, two years ago but has been acting as drill instructor in Ottawa, returned to town this week and proceeded to his farm.

Mrs. W. Towell entertained a number of friends to a pleasant social evening last Friday. Games of various kinds were played during the first part of the evening and later the party adjourned to an adjoining building which was nicely fitted up for dancing.

The members of the Rebekah lodge and their friends paid a surprise visit to the Old Fellows after the business of their regular meeting Wednesday evening. There was a good turnout and after they were introduced to the officers and members, business was forgotten and a pleasant social hour was spent.

W. H. Hatfield, D. D. G. M. of the Masonic order for this district, paid the local lodge an official visit last Monday evening. Several visiting members were present from Medicine Hat and Suffield for the occasion. After the regular business of the evening was completed a pleasant social hour was spent in the lodge room.

To celebrate his birthday anniversary, little Agnes Mulheide entertained a number of her school friends to a pleasant afternoon party last Saturday. As the weather was fine a number of outdoor games were first played, after which all went inside and were treated to a dainty lunch, and more indoor games were indulged in. A thoroughly enjoyable afternoon was spent by the guests.

A exchange tells of a novel way of making money for the Red Cross. W. J. Lang, an old resident of Redcliff, was holding an auction sale in a Shalokew town and a lady presented him with two turkeys to be auctioned off and the proceeds to go to the Red Cross. The first buyer of the turkey put them up again; so did the second and third buyer and when the week was over these two turkeys netted \$100. A small pig was also sold in the same way and brought \$36.00.

C. W. Reade, manager of the Imperial bank here, has joined the Band of the 5th Brigade and is now working enthusiastically to do his bit. He has had the land adjoining the bank property plowed up and enclosed with a neat marble fence. The rear of the lot he is preparing for market gardening on a scientific scale for demonstration and experimental purposes. The portion facing the street will be planted in grass and comfortable settees and hammocks will be installed so that the manager and his friends may enjoy the balmy breeze of the evening twilight, and enjoy the fruits of his labors by watching the garden grow.

Miss Lyle, who has been employed at the station here, left last week for Lehighville. Miss Hardin takes Miss Lyle's place here.

Fresh oranges, apples, bananas, shouldered ice cream at Mrs. Wilcox's lunch room for Saturday. The post-office is opposite this store.

With "low logs" selling at 12¢, or thereabouts, a hundredweight, an attempt is being made on the property of the big timber in Western Canada.

It is now said that formaldehyde is being used by hidden enemies in the hope that farmers would sow their wheat without testing it as a safeguard against rust.

In an endeavor to do his bit along the line of production W. T. Lockwood is now taking an active interest in the raising of chickens. He has his incubator going full steam and expects to have quite a hatch.

June the 14th, 15th, 16th, 18th, 19th and 20th are the dates set for the Chautauque to appear in Redcliff this year. As this is less than two months hence, we advise the committee to get busy with their organization work.

An epidemic feeling prevails among farmers throughout the Canadian prairie provinces with regard to the 1916 crop. The early date at which they are able to commence work and the excellent condition of the soil are a good augury.

Sgt. Robt. Pearson has been secured to address meetings in this district in aid of the Y. M. C. A. campaign, the dates of which are set for May 7th, 8th and 9th. Unless present plans are changed Capt. Pearson will address a meeting in Redcliff on Sunday, April 26th.

"Bluebird Day" at the Amuse-U theatre on Monday and Tuesday will be marked by presentations of "The Clean-Up," a comedy drama in which Franklyn Farnum and Brownie Vernon will play the stellar roles. While there will be thrills galore and exciting episodes in abundance, "The Clean Up" had been screened previously for the purpose of laughter.

## BIRTH

BALANTYNE.—In Medicine Hat hospital, on Thursday, April 11th, 1914, to Mr. and Mrs. A. B. Balantyne, of Redcliff, a daughter.

## Activities in the

## German Navy.

Greater activity reigns at German naval base, especially at Kiel. Coal and ammunition are being shipped in short in large quantities, according to information received from a reliable source. German naval contingents with heavy guns were recently recalled from the western front to join the fleet, and were replaced by Austrian artillery manned by field forces. Incidentally, this a naval raid for which magnitude is about to be demonstrated.

## LIVELY FIGHTING

## ON ITALIAN FRONT.

Lively fighting along the most of the Italian front is reported in the official statement issued by the war office, which reads: "Lively artillery actions took place in the Lagorai valley on the Asiago plateau and in the Montello area. Our batteries carried out effective bombardments of hostile working parties, entered the enemy lines and brought back a few prisoners. The enemy attempted to surprise one of our advanced positions, but was promptly repulsed."
